Prebid Questions

Project No. 080292

Sale Date - 5/7/2008

Question Submitted: 4/22/2008

Question Number: 1

The plans do not reference or note clearly the location of 24" and under pipe removals required for reference # 8. Please provide the locations and sections showing all of the pipe removals.

Question Submitted: 4/24/2008

Question Number: 2

What type of Low Strength Mortar Backfill is required for Reference # 57 ?

Question Submitted: 4/25/2008

Question Number: 3

Can ODOT supply locations and the insulation detail requirement for each location of waterline that is to have Frost Proofing repair per reference #61 item 638 as described on plan page 10/167 ?

Due to the variability in the depth of the water lines as they approach the bridges, Reference #61, Repairing Damaged Frost Proofing, is an item that will be as directed by the engineer, as stated in the note on sheet 10. This variability is why the locations are not itemized in the plans (outside of a split shown in the general summary for each roadway) and which detail requirement (Insulation Detail A or B) for each location is not specified.

Question Submitted: 4/9/2008

Question Number: 4

Ref# 136- 1" Elastomeric bearing pads "as per plan".What is the width of the Elastomeric bearing pad at the south abutment??? What is the width of the Elastomeric bearing pad at the north abutment??? Page 123 shows the Elastomeric bearing pad but does not show the widths.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
