Prebid Questions

Project No. 080142

Sale Date - 2/13/2008

Question Submitted: 2/10/2008

Question Number: 1

Who owns the railroad tracks? How many trains run through here? We didn't find this information in the bid proposal. Thank you.

Question Submitted: 2/11/2008

Question Number: 2

Will Ref. 2 ditch cleanout require bid items for seeding & fertilizer?

Question Submitted: 2/11/2008

Question Number: 3

When getting the information together for our insurance company for project 142, I noticed that Reference 38 is for Railroad Premium; however, I couldn't find any information listed in the proposal regarding the railroad. I know the insurance company always has me fax them the proposal section that contains the railroad information. Is there an addendum coming out covering that information?

Question Submitted: 2/11/2008

Question Number: 4

Please advise what wattage and voltage are required for ref. 7 underpass luminaire. The photometric distribution listed by manufacture are in conflict and can not be used to determine what wattage is required, on plan page 7/30 and 8/30. Also no voltages are listed in the plans nor in the proposal. The reason the voltage is needed is it may affect ballast type per CMS 725.11. I sent this February 7, 2008 and am resenting this Monday 11, 2008.

Thank you for pointing out that this information is missing from the bidding documents. Because these items are relatively small compared to the total cost of the project, the project will not be delayed in order to issue an addendum. Please bid an appropriate wattage and voltage.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
