## Prebid Questions

Project No. 050033

Sale Date - 1/12/2005

Question Submitted:

Question Number: 1

Q1: In the past this ROW spray project was for non-selective vegetation control with inspection to be late September. The plans today ask for herbicide spraying to control selective plant material but inspection to be late September. After talking with the District Manager, Bruce Merry, about this he thought it was to be total non-selective vegetation control, but said to contact your office. Please clarify for me so I know how to proceed on our bid.

**The notes and requirements for Herbicidal Spraying of Right-of-Way Fence in this plan are the similar to that used in previous projects. There is no requirement for non-selective vegetation control. The general notes on plan sheet 4 are clear in the requirement for a 90% kill of the selected vegetation at the time of inspection, which is after September 29, 2005.**

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
