## Prebid Questions

Project No. 040569

Sale Date - 11/3/2004

Question Submitted: 10/26/2004

Question Number: 1

This project does not have a bid item for removal. However, when placing epoxy markings in the same place as existing pavement markings, removal is required, as per 646.04D, and paid, as per 646.07, under the bid item for 646 Removal of Pavement Marking. What is the Department's intent here?

**646.07 states "The cost of cleaning and surface preparation according to 646.04 is included in the unit bid cost for the various pavement markings." The Removal of Existing Markings is included under 646.04 [646.04.D]. Since 646.07 does not specifically exclude 646.04.D, the payment for removal is included under the bid cost for the various pavement markings. The pay item for 'Removal of Pavement Markings' is used when existing markings are at incorrect locations and will conflict with the proposed markings.**

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
