Question Number: 3

Question Submitted: 12/14/2004

1. This Application of Fast Dry Pavement Marking in District 11 Project includes reference 0001 item 832 Erosion Control. Is the inclusion of this bid item an error?

Your Answer:

A1) No. Item 832 Erosion Control is required by ODOT on all maintenance type projects.

COMMENT AND QUESTION:

ALL PAVEMENT MARKING PROJECTS ARE MAINTENANCE PROJECTS. THIS IS THE FIRST TIME ODOT HAS ADDED AN EROSION CONTROL ITEM ON A PAVEMENT MARKING PROJECT. WHAT EROSION CONTROL WORK IS THERE?

THERE ARE MANY TYPES OF EROSION CONTROL UNDER ITEM 832, YET THERE IS NO MENTION IN THE PROPOSAL OR PLANS (OR SPECIFICATIONS RELATING TO PAVEMENT MARKINGS) ABOUT ANY EROSION CONTROL. WHY WOULD YOU BID AN ITEM OF WORK THAT DOES NOT EXIST ON THIS PROJECT?

This is taken from the ODOT Website: Temporary Sediment and Erosion Control Designer Note: This supplemental specification 832 will be provided on all projects along with supplemental specification 833. Provide proposal note 205 only as required

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
