Prebid Questions

Project No. 040574

Sale Date - 11/3/2004

Question Submitted: 10/25/2004

Question Number: 1

Page 2/18 indicates several areas to be addressed in part B of this contract. All of the items in part B are to be "as directed by the engineer" and are made up of several various pay items. To be able to more accurately price this work we will need to have more detailed locations and descriptions of what work will be performed. The dots used on the drawing don't allow me to know where to look (left, right, median etc.)

This project is set up to be a work order type contract, utilizing the pay items in the plans. Specific, detailed plan information for each location is not available at this time.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
