Prebid Questions

Project No. 050615

Sale Date - 12/20/2005

Question Submitted: 12/8/2005

Question Number: 1

I am unable to check the plan quantity on location 6. It appears the bridge is 144 ft. wide face to face of parapets. Therefore both bridges complete would be 288 ft. If new seal is required only where the section symbols appear (plan sheet 13/28), 144 ft. will be needed. The plans call for 162 ft. There was snow on the bridge when I visited the site. I did not determine whether or not the seal extends through the parapets. If this is the case please refer me to plans or standard drawings. Please advise if the same or different criteria was used to determine the plan quantity on location 7. Thanks for your help.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
