Prebid Questions

Project No. 070179

Sale Date - 4/18/2007

Question Submitted: 3/29/2007

Question Number: 1

On sheet 17/35, it is noted that there is 740 CY of excavation for the box culvert. Would this excavation be considered incidental to item 603? Should the pay item for excavation be reduced by 740 CY? Also on sheet 17/53, it is noted that there is 137 CY of embankment on top of the box culvert. Does this material need to be structural backfill, as per spec 603?

Question Submitted: 4/5/2007

Question Number: 2

On page 8 of plans, Detour Plan, in the past ODOT projects that we have done, ODOT provides the signs and does the detour. The notes on this page says that the contractor is to erect maintain and remove the detour. Does that mean that we will have to supply the actual signs and do the detour ourselves, with the signs shown? Just need to know to figure the cost of signs in bid if we are to provide. Thank you!

The answer to the question is "yes". That is what the CMS calls for and that is what we want.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
