Prebid Questions

Project No. 050523

Sale Date - 10/19/2005

Question Submitted: 10/10/2005

Question Number: 1

Bid items 38 & 39 4" Conc. Walk and Curb Ramps, APP.

The quantities in the plans do not match the quantities in the proposal.

I checked the Gen Summary sheet against the Proposal and the quantities agreed. Please send more information if I am missing something. Thanks!

Question Submitted: 10/11/2005

Question Number: 2

Page 20-21/48 Maintenance of Traffic Phase 1/2 – The barrier wall is shown to extend from guardrail & shoulder back to the other end guardrail & shoulder. This does not leave room for access to the work on the bridge. Should the barrier wall be reconfigured to allow passage in/out of the work zone? Would temporary traffic attenuators be required?

We believe that the contractor can move equipment in and out of the work zone by moving and replacing the barrier. If the contractor feels that another method of Maintaining Traffic would be better he can work with the Project Engineer after the contract is awarded

Question Submitted: 9/15/2005

Question Number: 3

Bid Item 56

643 Word on Pav't, 96" 2 EACH

This job has Waterbase Paint and Thermoplastic Pav't Markings. It seems odd that this bid item would be Polyester for only 2 words. Is this a mistake?

No mistake, please bid according to plan.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
