

Ohio Department of Transportation

Prebid Questions

Project No. 080547

Sale Date - 10/8/2008

Question Submitted: 11/10/2008

Question Number: 1

1)The 2 expansion joints to be painted has no access for equipment needed to do the surface prep. The specs say to use a barge. The equipment needed to accomplish this task exceeds 80 tons, therefore use of a barge is not an option. Access roads do not exist on either end of the bridge. Would we be able to use the shoulder during lite traffic hours? Use of a shoulder would expedite the painting portion of this project.2)If access to the shoulder is prohibited, would the use of sand, such as black beauty, be an option?

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
