Question Submitted: 1/2/2009

Question Number: 3

Sheet 1529 – Retaining Wall 1 – Measurement for payment for drilled shafts above bedrock will be the distance between the existing ground surface and the top of bedrock. The plan quantities for both drilled shaft items on Wall 1 appear to be from the bottom of wall elevation to the bottom of pile elevation as shown on sheet 1531. Since the shafts will need to be drilled from existing ground, and will be paid as such, the quantities for bid items 479 and 480 are understated. This is an issue on the other walls as well, please correct.

Question Submitted: 1/3/2009

Question Number: 4

Would Odot consider changing the 50" Portable concrete barrier APP to 32" Barrier? This barrier is not used to divide oncoming traffic where this height might be required. If the 50" height is still desired can 32" barrier with Glare Screen be used?

Question Submitted: 1/4/2009

Question Number: 5

Since this project has been delayed 2 weeks would ODOT consider extending the current completion date by 2 weeks? The project currently had a tight construction schedule if it had bid the previous 2 lettings.

Question Submitted: 1/5/2009

Question Number: 6

ref 41 item 407 tack coat does not include the quantity to cover the overlay area.

Question Submitted: 1/5/2009

Question Number: 7

Note 4 on drawing 2346 states that bolts will be ASTM type-3. It is unusual to see type 3 bolt unless it is used with weathering steel, and the moment plates are type A709 (M) type 36. Is it intended that type-3 bolts will be used to attach the moment plates?

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
