Question Submitted: 7/27/2007

Question Number: 2

How can I gain access to the anchorage tunnel to determine how much cleaning of the calcified mineral deposits and cleaning catch basin there will be. I also need to know how long it will take for spoil removal

On Friday, August 3, 9:00 AM, access to the anchorage tunnel will be granted to one representative of all potential bidders. All interested parties should meet at the anchorage tunnel access located at 898 Monastery Street, Cincinnati, Ohio. All parties entering the tunnel are required to have a hard hat, safety shoes, safety vest and a flashlight. Persons entering the anchorage tunnel should be able to climb the emergency exit ladder within the ventilation shaft in the event of an emergency. No additional information will be given or any question answered during the field visit. Any questions that may arise during the inspection shall be submitted as a Prebid question

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
