Prebid Questions

Project No. 080620

Sale Date - 11/19/2008

Question Submitted: 9/26/2008

Question Number: 1

The construction noise note on page 4 of the plans states no power operated construction type equipment can be operated between 9:00pm and 7:00am. This conflicts with the second paragraph on page 5 of the plans which states lane closures for traffic switches, paving through an intersection, or installing traffic loops can only be done between 9:00pm to 6:00am. These operations will require power operated construction type equipment. Please clarify.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
