Prebid Questions

Project No. 090379

Sale Date - 7/15/2009

Question Submitted: 7/1/2009

Question Number: 1

In the proposal the mix design requirements are to be medium traffic designs, but the reference items are for heavy designs with PG64-28 & PG70-22 liquid. Does ODOT want to stay with Medium Designs & PG64-22 liquid? With the cost of PG64-28 & PG70-22 liquids and having to buy whole tanker loads, it will make these mixes expensive.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
