## Prebid Questions

Project No. 080020

Sale Date - 1/9/2008

Question Submitted: 12/31/2007

Question Number: 1

Sunday or night work is required from SLM 26.52 to 27.70 per Plan sheet 2 of 13. Proposal notes PN 460 - Night Paving, 401.17 Sealing of Cold Joints and PN - 461 Night Paving using Material Transfer Device are listed in the proposal for this project. If work is performed on Sunday in this section, SLM 26.52-27.70, will sealing of cold joints and a material transfer device be required? If so, wouldn't the department receive a better project if cold joints were sealed and a material transfer device was used on the entire 6.38 mile project instead of only the southern 1.18 miles?

**The Contractor should bid the project as per plan and proposal.**

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
