## Prebid Questions

Project No. 090078

Sale Date - 2/4/2009

Question Submitted: 2/13/2009

Question Number: 1

ODOT spec 422.02 requires the ADT in order to select the appropriate emulsified binder for chip seal. Will ODOT provide the ADT for the proposed chip seal portion of this project?

**The ADT for JEF-152-(5.26-13.87) is 2380. This information is on ODOT's web page. This is the link:  
<http://www2.dot.state.oh.us/techservsite/officeorg/traffmonit/countinformation/default.htm>**

Question Submitted: 2/13/2009

Question Number: 2

On SR 152 you are calling for a single chip seal starting at 6.41 SLM to 13.87 SLM. There is nothing stating how to handle the existing RPMs whether to remove or pave around. Typically ODOT has been removing the existing on chip seal and replacing with new. Please review.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
