For Ref Item #57 516E31011 2" Deep Joint Sealer, As Per Plan, I don't see any detail. Please clarify.

Question Number: 2

The project calls for only a 75 day closure (Open to unrestricted traffic) for the purpose of re-constructing the bridge on this project and for half width construction. For the amount of work that needs to be completed on this project and the fact that the bridge will need to be painted after the bridge re-construction part is complete. It seems that there will be little time left, if any, for the painting contractor to complete their work. Can the department clarify on how the 75 day closure was established? It appears that a 120 day closure would have been more reasonable.

**The District feels that the 70 Day closure is sufficient to complete the work.**

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
