Question Submitted: 2/17/2009

Question Number: 2

Page 5 has a general note stating that a floodplain development permit shall be obtained for the project prior to project construction. Who obtains this permit? If it is the contractor, from whom do we obtain the permit?

Question Submitted: 2/17/2009

Question Number: 3

A note on page 5 states that "Under no circumstances shall the contractor cut/remove any trees prior to or during project construction." Upon visiting the site, there are several trees on the north side of the bridge that will interfere with abutment construction, and they will have to be removed. Please advise.

**The District does not believe that there are any trees which will interfere with the abutment construction.**

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
