ON THIS PROJECT WILL ODOT AS PER THE 800 SPEC.EXPECT RIDEABILITY AND DENSITY TESTING.THE RTE. 224 SECTION IN MAH. CO. IS VERY BAD.ONE INCH MILLING AND OVERLAY WILL NEVER PROVIDE A SMOOTH RIDE.

Pavement treatment revised by an addendum. ODOT will expect rideability and density testing as per the 800 spec.

Question Submitted: 2/2/2010

Question Number: 2

Straightline drawing for SR 46 shows a suspension of work at SLM 7.13 to 7.49, but quantities of planing, tack and asphalt are included. What is ODOT's intentions?

Please disregard the suspension of work as shown in the straightline drawing on sheet 8 of 10. The district intentions are to plane and pave through this section as shown in sub-summary on sheet 8 of 10.

Question Submitted: 2/2/2010

Question Number: 3

According to the straightline drawing for Rt 46 the contractor is to suspend work between SLM 7.13 and 7.49 but quantities are provided in that location for planing, tack coat and paving. What is ODOT's intentions in this area?

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
