

Ohio Department of Transportation

Prebid Questions

Project No. 040539

Sale Date - 10/20/2004

Question Submitted: 10/11/2004

Question Number: 1

Is Milling Qty correct?

Pg 6/11. Item 254 Pavement Planing, Asphalt Concrete, As Per Plan. Part 1 and part 2 list the same SLM and widths for calculating portions of the planing quantity. What is the correct SLM and width for each part?

yes. The milling quantity is correct. That particular portion of roadway is unique in that the corporation limit splits the state route down the centerline and is depicted by the schematic on page 2/11. That is why the SLM and widths are the same for Part 1 and Part 2.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
