Prebid Questions

Project No. 080540

Sale Date - 9/10/2008

Question Submitted: 8/18/2008

Question Number: 1

My question has to do with the completion date of the project. The project bids on 9/10/08 and has a 10/15/08 completion date. You are looking at a 3-4 week turn on the contract at best before you can get started leaving a week and a half best case for construction. This job has 30+ curb ramps and a fair amount of pavement repair before you can start the milling and paving. The job having 76-22 liquid is probably triggering the 10/15/08 date. If you moved the date to 10/31/08 you would at least have a chance. Better yet would be a 6/15/09. Letting you get the curb work and pavement repairs this year and mill and pave next spring.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
