Question Number: 2

The ARRA Signs that are being specified on this and all other Stimulus Jobs contain a note calling for using two No. 3 yielding supports. This project calls for the 84" signs which will have over 46 sq. ft. of surface area. The two No. 3 posts will not withstand the windload. Please review the support size to avoid change orders to increase post size after the jobs are bid.

**See addendum #1 in which the ARRA sign was changed to "Freeway/Expressway" which requires three No. 3 yielding posts.**

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
