## Prebid Questions

Project No. 100262

Sale Date - 5/6/2010

Question Submitted: 5/1/2010

Question Number: 1

Bid reference # 32 is listed in the proposal as a combination signal support, type TC-81.21 design 11 pole with mast arms TC-81.21 design 4 and design 2. However, plan page 8 shows that one of these arms is required to be 45' in length which is beyond the typical limit of a design 4 arm. Is this item described correctly or is a different arm design intended?

**See addendum.**

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
