

Ohio Department of Transportation Prebid Questions

Project No. 050586

Sale Date - 12/2/2005

Question Submitted: 12/1/2005

Question Number: 1

It is understood that there is a driveway in the middle of the workzone. The 2 signals for the main road will have 2 signal heads and be in compliance with ODOT specifications.

2 Questions:

- a) Should the traffic signal for this driveway have 2 signal heads or is a single head signal acceptable?
- b) Will this signal for the driveway be traffic actuated by sensor or on timing cycles?

A1) This decision is up to the contractor. A2) Not by sensor, see plan sheet 5 for Color Sequence Chart and Timing Chart.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
