## Prebid Questions

Project No. 090217

Sale Date - 4/15/2009

Question Submitted: 11/21/2008

Question Number: 1

On page 31 on the General Summary, it refers to page 35 for the break down on pipe removed. Page 35 does not contain this information. Also on the cover sheet, it states there are storm profiles on page 116. The plans do not contain page 116.

Question Number: 2

Page 5, right hand column Endangered Species Habitat This note states these trees can only be removed prior April 1st and after September 30th. This project is scheduled to sell April 8th with a completion date of August 30th. Please advise how bat tree removals will be handled.

Question Submitted: 11/24/2008

Question Number: 3

The traffic signal subsummary shows three items that do not appear in the bid items: (1) 2 ea - pedestrian pedestal poles, (2) 2 pedestal foundations, and (3) 1 uninterruptible power supply for the signal controller. The UPS was also omitted from the specs so it may have been deleted from the bid package. But the pedestrian pedestals are an important aspect of the design and will be needed.

Question Number: 6

The design files on the FTP site for this project did not include the alignment .GPK files and the existing/proposed cross section .XSR files. Could those files be added?

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
