Prebid Questions

Project No. 060530

Sale Date - 12/21/2006

Question Submitted: 12/6/2006

Question Number: 1

The note on the right hand side of page 6, Pavement Restoration for pipe installaions, includes a quantity of 1392 cy for 302, and 1392 cy for 304. The note states the calculation is based on trench width plus 2'. There are 15 crossings on this job, this quantity would be enough to replace 227' of pavement at each pipe location. Is this quantity correct.

Question Submitted: 12/6/2006

Question Number: 2

Bid Item 27 Work Involving Petroleum Contaminated Soils - 200 Tons has information on plan sheet 6 General Notes. The notes mention dewatering and containerization and testing of water for disposal, including diposal. There are not any bid items for disposal of either Regulated or Non-Regulated Water. Is disposal of water incidental to the per ton Petroleum Contaminated Soil item or will water disposal be considered as extra work?
If water is considered incidental, it is difficult at this time to determine an amount to include in the bid.
Please provide direction.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
