On pg.3/5 Partial Depth Pavement Repair.

As stated the work is to be performed between SR 43 to SR 44 what is ODOT's intent for the partial depth repairs. Are they going to be full lane repairs, longitudinal variable width repairs or transverse repairs? Please advise with an addendum.

Per CMS Section 251.02 "REMOVAL OF EXISTING PAVEMENT. The Engineer will designate the location and limits of the areas to be repairs"
