

# Ohio Department of Transportation Prebid Questions

Project No. 050438

Sale Date - 8/10/2005

---

Question Submitted: 7/20/2005

Question Number: 1

The text in the flowchart for Proposal Note 109 is scrambled. Where can I find the correct flowchart?

**All of the information is contained in the proposal note. If you'd like to see the flowchart you can find it on our website at: <http://www.dot.state.oh.us/drrc>. Go to the proposal notes section. It is Proposal Note 109, 2005 spec book.**

Question Submitted: 8/8/2005

Question Number: 2

The plan notes on drawings 11 and 12 require the oak timbers for Ref. No. 20, Item Special, Timber flooring to have preservative treatment. We have talked w/ three lumber suppliers, they have all stated that oak is too dense and can not be treated as required. Please advise.

**The notes on sheets 11 & 12 indicates the treatment is to pressure treat to 0.6 lb/cu. ft. retention or refusal. If the material can not meet the 0.6 lb/cu. ft. retention requirement or refuses treatment entirely this is acceptable, but an effort to treat this material shall be made.**

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
