## Prebid Questions

Project No. 080183

Sale Date - 3/26/2008

Question Submitted: 12/7/2007

Question Number: 1

This project requires in place cold recycling with foam injection. MSO Construction USA will not be bidding this project. I have been in touch with five other contractors across the country that are familiar with this process: Flextech, Cleveland Specialized Construction, Cleveland Base Construction, Columbus Koss Const., Topeka, Kansas Anderzack Pitzen, Metamora. My general feeling and interpretation of what I have been hearing is there are very few contractors who can meet the spec for the work involved on this project. Many do not have the specialized equipment that ODOT is requiring and/or feel that they can meet density requirements. Koss Const. in Topeka, Kansas and a company in Arizona (who I am still searching for) will be my last contacts I have to make. Can ODOT provide the name of a specific contractor who will submit a price for the cold in-place w/foam injection for this project? Thanks, Ken Crabill

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
