Prebid Questions

Project No. 050122

Sale Date - 2/23/2005

Question Submitted: 1/28/2005

Question Number: 1

on the reinforcing steel list there is are "type 2" bars listed for marks B505,B601. There is no bend diagram shown for this type of bend. Can you please verify?

Question Submitted: 2/17/2005

Question Number: 2

Several of the steel fabricators for the structural steel have been contacted and are indicating an early delivery date for the first phase of structural steel during the months of July or August. The project currently has a completion date of August 31, 2005. If the contractors receive the first phase of steel as late as indicated above, the project completion date will not be met. Will ODOT extend the completion date? Also note this project has a construction noise note that will only allow one shift of work to occur. Thus, the project cannot be accelerated by multi-shifting.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
