Question Number: 1

Proposal Note 470(Surface Smoothness) is specified for this project, but one area does not meet the designer note criteria. The following is the area in question USR 62 from SLM 8.48 to SLM 10.01 - per designer note: Projects where this note may not be desired are projects with legal speeds less than 40 mph and projects with numerous intersections. Shouldn't the note be removed from the project for this section?
