Prebid Questions

Project No. 090456

Sale Date - 11/4/2009

Question Submitted: 9/8/2009

Question Number: 1

PBQ – Missing PN 530 or 535 (690456) Supplemental Specification 800 dated 7/17/2009 eliminates CM&S 401.20 Asphalt Binder Price Adjustment, making it only pertain when PN 530 or PN 535 are listed in the project's Proposal. Is it the Department's intent to eliminate Asphalt Binder Price Adjustment completely on this project by not adding one of the Proposal Notes specifying one or two year Asphalt Binder Pricing Adjustment

PN 530 is used on all single season projects that specify Asphalt Concrete with a minimum of 1000 cy for any contract line item and projects that utilize a minimum of 2500 cy of Asphalt Concrete for any contract line item and are expected to be constructed in more than one construction season should specify PN 535. This project does not meet these requirements and it is the Department's intent to eliminate Asphalt Binder Price Adjustment completely on this project.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
