## Prebid Questions

Project No. 098011

Sale Date - 4/1/2009

Question Submitted: 10/14/2008

Question Number: 1

Question 1: Will precast headwalls be allowed for the 38" x60" pipe.

**On Std Dwg HW-2.2 there is this statement "Precast half-height headwalls are only approved for round conduits with a maximum conduit diameter of 78"". Precast headwalls are not to be used for elliptical conduit. We have an en elliptical pipe for this project, therefore precast will not be acceptable.**

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
