Prebid Questions

Project No. 050105

Sale Date - 2/2/2005

Question Submitted: 1/26/2005

Question Number: 1

On project 105 (05) SR 82 in the February 2, 2005 letting, ODOT has specified a quantity of 1,500 SY of item 251, Partial Depth Pavement Repairs. Following a field survey the intended use of the item is unclear. The quantity could be used in both the longitudinal and the transverse direction.

Please explain the intention of the Department with respect to this item.

Q: What portion of the quantity is intended to be used longitudinally?

Q: What portion of the quantity is intended to be used transversely?

Due to the fact that the repairs differ substantially in cost, relative to direction, please clarify the Departments intended use of the item

Per CMS Section 251.02 "REMOVAL OF EXISTING PAVEMENT. The Engineer will designate the location and limits of the areas to be repairs." We respectfully disagree that there is not adequate information to properly prepare a bid. The pay item is consistent with the CMS and has been used routinely in ODOT plans.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
