## Prebid Questions

Project No. 040507

Sale Date - 9/22/2004

Question Submitted: 9/17/2004

Question Number: 1

Project 040507 Tuscarawas 9-22-2004

Following are questions regarding the referenced project:

1. Ref # 0019 is a pay item for a loop detector unit for which there is no plan note. The 2002 specifications call for loop detector units to be included with the controller unit / cabinet assembly pay item which is reference # 0029. Should Ref # 0019 be deleted ?
2. Ref # 0029 specifies a TS2 type 2 controller in a TS2 cabinet... Are we to assume the TS2 cabinet is a TS2 Type 1 ( serial type cabinet)? Or is the TS2 Type 2 cabinet ( point to point wired, similar to TS1 )?

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
