

Ohio Department of Transportation Prebid Questions

Project No. 070282

Sale Date - 6/1/2007

Question Submitted: 5/17/2007

Question Number: 1

On page 2 of the plans, the pavement planing note states the planing will need to be covered with the surface course in 72 hours. Is the intention to do the pavement repairs before the milling? If not there would not be sufficient time to do the repairs, SAMI and put the surface down in 72 hours, since we can only work 6 hours per day.

The intent is to do the pavement repairs first.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
