For Item 0025 633E72500 SYSTEM ANALYSIS (WT: 44), it seems as though some of the tasks are not applicable since there are no system loops identified in the plans and traffic responsive operation would not be implemented. Are there any existing system loops that could be used for traffic responsive operation? If not, will the system analysis tasks be abbreviated?

**The Item 633E72500-System Analysis was removed from the plans and the Item 633E72501-System Analysis, As Per Plan was added per Addendum. The Item 633E72501-System Analysis, As Per Plan note will be included in this Addendum.**
