## Prebid Questions

Project No. 056003

Sale Date - 2/23/2005

Question Submitted: 2/16/2005

Question Number: 1

The soil borings on the above subject project were drilled to auger refusal at 27' deep. The drilled shafts are supposed to be 38.5'. For estimating purposes, what type of rock should we figure for the additional 11.5' of drilling.

**No additional information is available regarding the soils. Please prepare your bid based upon the available information. Please refer to CMS104.02 B. should you encounter subsurface conditions differing materially from those indicated in the bidding documents.**

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
