Prebid Questions

Project No. 090403

Sale Date - 7/29/2009

Question Submitted: 7/17/2009

Question Number: 1

Please clarify sequence of construction on page 3 of the plans, where all planing needs to be done and all partial depth pavement repair and linear grading but have no normal traffic running on planed area. Can shoulder be coned off at this time or does each area need to be paved the same day as planing occurs?

The shoulder can be coned off and does not need to be paved the same day it is planed.

Question Submitted: 7/22/2009

Question Number: 2

There is a conflict between paved shoulder widths shown in the Typical Sections on sheet 2/7 and the Shoulder Data shown on sheet 7/7. The Proposed Paved Shoulder widths on the shoulder data sheet are 1' less than the widths in the typical sections. Please clarify.

The typical section on 2/7 shows the pavement replacement 1' into the driving lane. The proposed paved shoulder width column on 7/7 shows the width of the paved shoulder only. The column for item 443 includes the proposed paved shoulder width plus the one foot into the driving lane.

Question Submitted: 7/9/2009

Question Number: 3

Please provide the list of DBE contractors that the Department considered for establishing the DBE Goal on this project and which work types they might perform. This project is located in an area with very few DBE Contractors, has limited Work Types, and has a relatively low contract value associated with those work types to be subcontracted.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
