

Work Zone Traffic Control & Safety

A Free, On-Site “Circuit Rider” Class from Ohio LTAP

2021/22

Available to Ohio's county, city, village and township agencies.

Description – This introductory class is intended to review the basic elements and typical applications of roadway work zones for temporary traffic control. The discussion will address the use of advance warning signs, traffic control devices such as cones/drums/barricades, and flagging procedures. Reference will be made to Part 6 of the current edition of the Ohio Manual of Uniform Traffic Control Devices (OMUTCD). Rural and urban applications for local roadway systems will be emphasized.

Who Should Attend? – The host agency for Circuit Rider classes must be a local government (county, city, village or township). This class will be of interest to roadway maintenance workers, supervisors, engineers, and others responsible for work zones on local roadways.

Instructor – Raymond Brushart, Program Manager, Ohio LTAP Center. Mr. Brushart has compiled over 25 years of experience in traffic engineering and transportation planning working for ODOT and the City of Columbus; including 3 years of experience as a Safety Studies Engineer for ODOT and assisting in the administration of the Highway Safety Program.

Registration Information – LTAP Circuit Rider classes are provided on-site and **free of charge** for local government agencies. Please review the host agency requirements and scheduling process described below. Circuit Rider classes are scheduled based on the instructor's availability, and in the order the requests are received. Please plan ahead at least two months when contacting LTAP to request Circuit Rider training. Additional information about the Circuit Rider program is available online at: <http://www.dot.state.oh.us/Divisions/Planning/LocalPrograms/LTAP/Pages/Circuit-Rider-Training.aspx>

Note: Ohio LTAP's abbreviated “Circuit Rider” classes are not approved as course credits toward the Roads Scholar training recognition program.

Due to the COVID-19 pandemic, please note that we are currently unable to conduct in-person classes.

How to Participate

The Circuit Rider training program has been designed to deliver on-site introductory classes (2 to 3 hours) free of charge for local government agencies in Ohio. In order to schedule a class, the local host agency must be able to provide:

- A minimum of 15 participants who will attend (may invite employees from other local agencies, if needed). The maximum number of attendees for one class is approximately 40 – 50.
- A meeting room, with tables and chairs, that is suitable for conducting a training class with a PowerPoint presentation. It is helpful to have a projection screen or blank wall available, along with an LCD projector. The instructor can bring a portable projector if needed.

For more information or to schedule a class on Work Zone Traffic Control & Safety, contact the LTAP office: Raymond Brushart – (614) 387-0523; or Mike Fitch – (614) 387-7358.
Email: Raymond.Brushart@dot.ohio.gov; or Mike.Fitch@dot.ohio.gov.
