Project Description

SEN-SR 18-31.37

PID 100747

ODOT proposes to replace the deck/upper portion of the bridge on State Route 18 over Royer Ditch in Seneca County. The new bridge deck will be a higher elevation, the pavement on the bridge and on both sides of it will be replaced, and the structure will also be painted. No new right-of-way will be needed for this project.

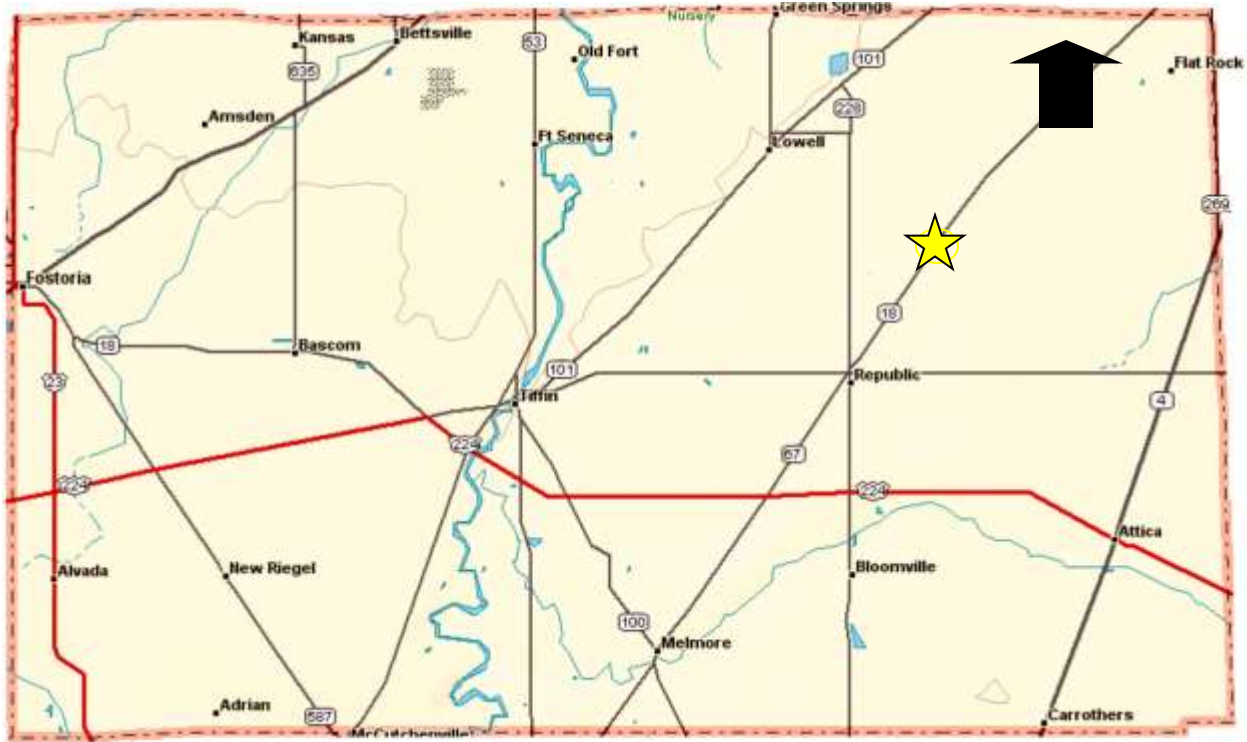

This project is funded with federal and state funds. Environmental clearance is scheduled for 03/16/2016. Construction is expected to begin in summer of 2016 and last approximately 120 days at which time traffic will be detoured, signs will be posted for the detour route. All work is weather permitting.

This project is located in rural, agricultural area. Within this project area there are no National Historic Landmarks, sites listed, or known eligible for the National Register of Historic Landmarks, sites listed or known eligible for the National Register of Historic Places, or sites for which Ohio Historic/Archaeological Inventory records have been completed.

No wetlands were identified within the project area and no trees will be cut. This project is located within the Royer Ditch designated special flood hazard area. Coordination with the local floodplain administrator has been completed and the project will be in compliance with all FEMA floodplain regulations.
