John R. Kasich, Governor - Jerry Wray, Director - Michael Dombrowski, District Deputy Director

## SUMMARY OF FLOODPLAIN IMPACTS

Date: 6/19/2019

Project ID: BRO-US 52-15.20 PID 108284

Floodplain Affected: Ohio River Zone AE

### Description of Project:

The project includes the replacement of a damaged culvert, beneath US 52, and construction of a 0.02-mile length of roadway, in Union Township, Brown County, Ohio.

### Why must this project be located in the Floodplain?

The outlet of the existing culvert is within the limits of the floodplain. The replacement pipe and outlet cannot be constructed without being in the floodplain due to proximity of the floodplain to the roadway and the steepness of topography.

### What alternative sites were considered, if any?

No alternatives were considered. This is a direct replacement and improvement of an existing storm sewer.

### Were any mitigation measures utilized on this project? If so, please describe.

No.

To the best of my knowledge, this project has complied with all applicable Local, State, and Federal Floodplain protection standards.
