SUMMARY OF FLOODPLAIN IMPACTS

Date: June 18, 2020
Project ID: 109627
Floodplain Affected: Ohio River

Description of Project:

Emergency repair project to correct slope failure between US 52 and the Ohio River. Dumped rock will be keyed into the existing slope to stabilize and armor the slope surface.

Why must this project be located in the Floodplain?

This project is a maintenance project which repairs the damaged embankment supporting a roadway that is already within the floodplain.

What alternative sites were considered, if any?

None.

Were any mitigation measures utilized on this project? If so, please describe.

None.

To the best of my knowledge, this project has complied with all applicable Local, State, and Federal Floodplain protection standards.
