Mike DeWine, Governor - Jack Marchbanks, Ph.D., Director - Michael Dombrowski, District Deputy Director

SUMMARY OF FLOODPLAIN IMPACTS

Date: MAY 15, 2020

Project ID: PID 106535

Floodplain Affected: BAKER FORK - ZONE A

Description of Project:

Replace single span truss bridge over Baker Fork on existing horizontal alignment.

Why must this project be located in the Floodplain?

Bridge is currently in a floodplain and will not be relocated.

What alternative sites were considered, if any?

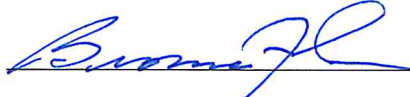

No feasible alternatives exist within the project construction budget.

Were any mitigation measures utilized on this project? If so, please describe.

Roadway profile is being raised and bridge span is being lengthened, increasing the hydraulic opening area.

To the best of my knowledge, this project has complied with all applicable Local, State, and Federal Floodplain protection standards.
