

Ohio Department of Transportation District 12

Permitted Lane Closure Times

Revision #14: July 1, 2018

The District 12 PERMITTED LANE CLOSURE TIMES is a tool used to manage traffic on the interstate and freeway system in District 12. The times given are the times lanes may be closed without causing major queues, (traffic backups). For any section of freeway or interstate not covered by the District 12 PERMITTED LANE CLOSURE TIMES, permission to close that section must be obtained from the District Work Zone Traffic Manager.

To use this web site click on the Icon for the freeway that will have lane closures.

Also click on the Notes Icon and follow all notes that apply.

Notes

District 12 Notes for Permitted Lane Closure Times

Revision # 14: July-1-2018

The following notes apply to lane closures on interstates, freeways, freeway look-a-likes and other roadways not listed in this document that are on ODOT Projects.

Note: 1

Lane closure times shall be adjusted for special events that have a **seating capacity of 10,000** in the downtown Cleveland area. The contractor shall not close a lane(s) in the inbound direction 2 hours before an event and in the outbound direction 2 hours after an event ends. This note only applies to locations within **8** miles from Downtown Cleveland (Public Square) except for I-77. This note applies to all of I-77.

Note: 2

There shall be no lane closures on holidays or holiday weekends. The following are considered holidays: Memorial Day, Fourth of July, Labor Day, Thanksgiving, Christmas, New Years, and Easter. No lane closures are allowed after 12 noon on the day preceding a holiday. For holiday weekends no lane closures are allowed after 12 noon on the day preceding the Holiday weekend until 12 am the day after the holiday weekend.

Example: Holiday falls on a Monday then no lane closures from 12 noon on Friday until 12 am Tuesday.

Day after Thanksgiving. No two (2) lane closures from 6am to 6pm, this note overrides the permitted lane closure schedule closure times.

Note: 3

Shoulder closures shall only be allowed at the times specified for lane closures, unless permission is granted by the District Work Zone Traffic Manager or Project Engineer.

Note: 4

The contractor will be assessed Road User Costs in the amount determined by Quewz-98 for lanes that are closed outside of the times given. Quewz-98 is a computer program developed by The Texas Transportation Institute in 1998. It determines road user costs for sections a of highway. Road user costs are very high, most will be \$100 to \$500 per minute per lane, or \$6000 to \$12,000 per hour. In some cases road user's costs may be higher.

Note: 5

Three lane closures may be taken on any 4 lane section from 1:00 am to 5:00 am.

Note: 6

TRUCK MOUNTED ATTENUATOR: When the contractor is setting short term work zones including Speed limit signs and the shoulders (right or left shoulder) are less than 10 feet in width and are on a road with speeds 45 mph or higher, a truck mounted attenuator (TMA) must trail the operation of setting the advance warning signs up or taking them down. This same truck must have a type B flashing arrow panel mounted on it facing the rear of the truck.

The TMA must bring a vehicle weighing 1800 to 4500 pounds to a safe, controlled stop, per MASH , TL-3 criteria. The manufacturer's specification must be followed concerning the size / weight of the truck and the connections to the TMA.

Note: 7

The Weekend times are considered to start 6pm Friday until 6am Monday.

Note: 8

Any Interstate or Freeway ramp not listed in the Permitted Lane Closure Times shall not be reduced in width, have lanes reduced or closed or have any work going on during the hours of 6am to 9am and 3pm to 6pm.

Note: 9

Any Roadway not listed in the District 12 Permitted Lane Closure Times shall not have any lane closures, weekdays from 6:30am to 9am and 3pm to 6pm.

Note: 10

No lane closures or shoulder closures shall be in place when no work is being performed.

Note 11: Total closures of freeways / rolling road blocks shall only occur from 12am-5am weekdays and from 3am to 7am Saturday and from 3am to 10 am Sunday and shall be per MT99.60

Note 12: Moving operations shall only occur during lane closure times unless permission is granted by the District Work Zone Traffic Manager.

Note 13: At areas where a lane(s) drops at an exit or interchange (either right or left lanes exit) no one or two lane closures are allowed within 3000 ft. of the drop lane gore on the mainline side of the freeway. The lane within this 3000 ft. may be closed at the times allowed for the downstream section of main- line.

The following times do not apply to long term closures or emergencies.

If there are any questions please contact: Dennis O'Neil, District 12 Workzone Traffic Manager at (216) 584-2204 or email dennis.oneil@dot.ohio.gov
