

# Stakeholder Comment Form

I-70/71 South Innerbelt Study -  
Topic: Project Design Enhancements  
Time: November 9, 2009 at 4:30 p.m.  
Place: Lincoln Theater, 769 E. Long St., 2nd floor

## Comments

### Highway Main Line:

1. The general design direction presented for the main line highway creates a unified look and matches the design enhancement features of the I-670 innerbelt. What are your comments on this general theme?

---

---

---

2. Do you have any specific comments related to the proposed main line highway enhancements? (see handout)

---

---

---

---

### Urban Avenues:

3. The general design direction presented for the urban avenues creates an improved, unified appearance along Mound St., Fulton St., new Southbound St. ("Lester Dr."), new Northbound St., and Parsons Avenue. What are your comments on this general theme?

---

---

---

4. Do you have any specific comments related to the proposed urban avenue enhancements? (see handout)

---

---

---
