

423 Type IV

Qualified Product List

Specification - Requirements

ODOT Construction and Materials Specifications 423 Type IV

Requirements for inclusion on the Qualified Product List

Submit to the Office of Materials Management the following information:

1. For approval submit 10 pounds (4.5kg) of base modified binder and 10 pounds (4.5 kg) of fiber binder from the same batch to the Laboratory. Provide test data for the product and a letter with the following:
 - A. Manufacturer
 - B. Agreement to immediately notify the Department on any changes in production, materials, dimensions, before shipment.
 - C. Provide the Department a contact name, number, and email address.
 - D. Provide material certification that more than 55% of the material is of domestic origin. If it is not of domestic origin, please provide the location in which the material is manufactured for review as part of the IIJA/BABA requirements.
2. Submit To:
Ohio Department of Transportation
Office of Materials Management
1600 West Broad St., Columbus, OH 43223
Attn: Liquid Asphalt Section - QPL

Provide reapproval documentation by January 1st of each year.

Acceptance by the Department

The Office of Materials Management will review a manufacturer's submittal for compliance with specification requirements and will evaluate any pre-qualification samples and quarterly evaluation samples.

Accepted products will be listed on the Department's qualified product list web page and will be loaded into the Department's Construction Management System for acceptance in the field through the QPL screen.

Field Documentation requirements

Products on the QPL will be accepted if they can be identified by the field to a supplier/manufacturer listed on the Department's Qualified Products List.
