

Non Shrink, Non Metallic Materials

Qualified Product List Specification - Requirements

ODOT Construction and Materials Specifications 705.20

Requirements for inclusion on the Qualified Product List

Submit to the Office of Materials Management the following information:

1. Manufacturer's letter certifying non shrink, non metallic materials supplied to the project will meet or exceed Departmental specifications and include:
 - A Certified test data on the non shrink Non Metallic Materials showing compliance to materials requirements.
 - B Typical markings on the packaging and any date markings.
 - C Upon request, provide samples of any materials that have self mixing injection systems, mixers, etc where the components come in a packaging system that will automatically premix.
 - D Application instructions and temperature limitations on a 30 minute field set
 - E Effective product life
 - F Agreement to immediately notify the Department on any changes in production, materials, dimensions, before shipment.
2. Provide the Department a contact name, number and e-mail address.
3. Provide re-certification documentation by January 1 of each year

Acceptance by the Department

The Office of Materials Management will review a manufacturer's submittal for compliance with specification requirements and will evaluate any pre-qualification samples.

Accepted products will be listed on the Department's qualified product list web page and will be loaded into the Department's Construction Management System for acceptance in the field through the QPL screen.

Field Documentation requirements

Products on the QPL will be accepted if they can be identified by the field to a supplier/manufacturer listed on the Department's Qualified Products List.
