

Welded and Seamless Steel Pipe- Galvanized

Qualified Product List Specification - Requirements

ODOT Construction and Materials Specifications 707.70

Requirements for inclusion on the Qualified Product List

Submit to the Office of Materials Management the following information:

1. Manufacturer's letter certifying the welded and seamless steel pipe supplied to the project will meet or exceed Departmental specifications and include:
 - A Provide typical certified test data for the pipe showing compliance to materials requirements
 - B Test data on the galvanized coating.
 - C Quality control methods for assuring the coating meetings ASTM and ODOT requirements
 - D A notarized document that the pipe meets the Domestic origin requirements of the Department's specifications
 - E Wall thickness and Diameters to be provided the Department
 - F Markings to be shown on each section
2. Agreement to immediately notify the Department on any changes in production, materials, dimensions, before shipment.
3. Provide the Department a contact name, number and e-mail address
4. Provide re-certification documentation by January 1 of each year

Acceptance by the Department

The Office of Materials Management will review a manufacturer's submittal for compliance with specification requirements and review the methods for controlling product..

Accepted products will be listed on the Department's qualified product list web page and will be loaded into the Department's Construction Management System for acceptance in the field through the QPL screen.

Any quality assurance field samples the Department obtains, tests and finds not in specification will mean removal of the supplier/manufacturer from the approved list.

Field Documentation requirements

Products on the QPL will be accepted if they can be identified by the field to a supplier/manufacturer listed on the Department's Qualified Products List.
