

## **Traffic Control Pedestals and transformer Bases**

### **Qualified Product List**      **Specification - Requirements**

ODOT Construction and Materials Specifications 732.15

### **Requirements for inclusion on the Qualified Product List**

#### **Submit to the Office of Materials Management the following information:**

1. Manufacturer's letter certifying the traffic control pedestals and transformer bases supplied to the project will meet or exceed Departmental specifications and include:
  - A Typical test data on the pedestals and transformer bases showing compliance to materials requirements including coatings.
  - B Critical dimensions of the pedestals and transformer bases.
  - C Statement that the steel meets the Department's domestic origin requirements
  - D Agreement to immediately notify the Department on any changes in production, materials, dimensions, before shipment.
2. Provide the Department a contact name, number and e-mail address
3. Provide re-certification documentation by January 1 of each year

#### **Acceptance by the Department**

The Office of Materials Management will review a manufacturer's submittal for compliance with specification requirements and will evaluate any pre-qualification samples.

Accepted products will be listed on the Department's qualified product list web page and will be loaded into the Department's Construction Management System for acceptance in the field through the QPL screen.

#### **Field Documentation requirements**

Products on the QPL will be accepted if they can be identified by the field to a supplier/manufacturer listed on the Department's Qualified Products List
